

Information Cover Letter

999 Angelique SpringsKuhnland, FL 14077-2215

Dear Briar Morar,

In response to your job posting for information, I am including this letter and my resume for your review.

In my previous role, I was responsible for governance for the identification, validation and remediation of information technology controls required by SOX, PCI DSS, PII, HIPAA and other applicable regulatory compliance frameworks.

My experience is an excellent fit for the list of requirements in this job:

- Data modeling tools (ER Studio, ERWin)
- Familiarity with ETL reporting tools such as Informatica, DTS, SSIS
- Extensive knowledge of SQL Server internals (locking, latching, memory management,) for Microsoft SQL server
- Good process monitoring skills
- Familiar with Axure or other wireframing software tools
- Experience applying a web design standard
- Knowledge of web client technologies (browsers, HTML,CSS)
- Strong detail orientation, and a passion for consistency

I really appreciate you taking the time to review my application for the position of information.

Sincerely,

Reese Senger
