

Infrastructure Project Manager Cover Letter

3831 Chara Expressway Yustad, TN 75710

Dear Riley Greenfelder,

I submit this application to express my sincere interest in the infrastructure project manager position.

In my previous role, I was responsible for input to and communication of project plans, project status and issues to all stakeholders (including executive management, provisioning, customer care, and customer and project teams).

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Amazon Cloud Hosting (advantageous)
- Based in Morley
- Core office hours, with occasional need to work outside of these in order to achieve deadlines
- Recognized internally & externally as a Subject Matter Expert (SME)
- Able to successfully plan and deliver large, long-term projects, on a Group-wide basis
- Planning and managing of several simultaneous technical projects
- Develops, manages, and maintains Project plan, project scope, and budget
- Manage Risk and Issues

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Tatum Runolfsdottir
