

Infrastructure Project Manager Cover Letter

288 Welch Valley
Colemouth, MA 99682

Dear Cameron Welch,

In response to your job posting for infrastructure project manager, I am including this letter and my resume for your review.

Previously, I was responsible for leadership, mentoring & tactical assistance to BPA Project Analysts and Project Managers during project initiation in order to create and deliver high-quality project initiation deliverables.

My experience is an excellent fit for the list of requirements in this job:

- Strong communication skills both verbally and written, experience interfacing with engineers, developers, stakeholders and senior leaders
- Java development / bamboo / Jenkins / Docker
- Oracle application development / EBS / Fusion
- Demonstrated and extensive knowledge with Enterprise Systems end-to-end integration
- Solid knowledge with multi-operating-systems environments, systems integration and disaster recovery
- Solid knowledge of Microsoft Windows, Unix/Linux, back-office servers and infrastructure technology
- Solid knowledge of networking standards, protocols and engineering tools, Internet and related technologies
- ITIL (strongly preferred)

Thank you for taking your time to review my application.

Sincerely,

Dallas Jones
