

# Intelligence Support Cover Letter

523 Ahmad GlenDelorasville, MO 72196-4874

**Dear Stevie Smith,**

In response to your job posting for intelligence support, I am including this letter and my resume for your review.

Previously, I was responsible for social media related socio-cultural overviews for specified AOI's and provide detailed analysis of social media activity and their relationship with VEO's, TCO's and local Governments.

Please consider my qualifications and experience:

- Crystal reports creation and modification
- Control M experience is desirable but not essential
- Qualified with the ITIL v3 Foundation course level
- Strong database and SQL skills with knowledge of the principles, practices and techniques used in information technology design and development
- Experience with enterprise level data analysis and integration and/or providing data focused systems integration solutions
- Expert level technical knowledge in data architecture and integration
- Experience using data integration tools such as SSIS
- Experience with Big Data Platforms, specifically Cloudera's Hadoop Ecosystem (Map Reduce, Impala, Spark, Hive, HDFS, Kafka)

**Thank you in advance for taking the time to read my cover letter and to review my resume.**

Sincerely,

Casey Hintz
