Previously, I was responsible for comprehensive documentation of models including analysis on technical aspects of statistical models for model validation purpose.

My experience is an excellent fit for the list of requirements in this job:

- Experience with analysing large sets of data to identify patterns and trends
- Participation in industry related organizations, community involvement and clubs preferred
- Experience with aviation operations preferred
- Coursework in Aviation Safety, Aviation Management, Technical Writing, Safety Management System or Human Factors, preferred
- Knowledge of Safety Management Systems (SMS) preferred
- Knowledge of Tableau or Dashboarding preferred
- Minimum of two semester of undergraduate studies
- Economics, mathematics, and/or computer sciences as major field of study

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Stevie Gleason
