IT Manager, Development Cover Letter

76069 Marvin CentersFranklynton, CO 62143

Dear Indigo Kuhn,

Please consider me for the IT manager, development opportunity. I am including my resume that lists my qualifications and experience.

Previously, I was responsible for iT teams and business personnel with technology solutions by weighing advantages of technology standards, market availability of products, risks and benefits of technology to meet business/IT needs.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Strong propensity to learn and grow
- Basic understanding of reporting and database tools (e.g., Excel, Access, other Microsoft Office applications preferred)
- Proficient use of workflow mapping and documentation tools
- Open minded, with "can do will do" attitude
- Proven track record of delivering web-based applications to corporate customers mass customers
- Knowledge of clinical data used for clinical drug development highly desirable
- Development experience and/or understanding of Spotfire (or equivalent BI tool), Java platforms, Vaadin Open Source UI framework, Iron Python scripting, and JavaScript charting libraries
- Familiarity with Quality Center ALM, Jira and TopTeam tools

I really appreciate you taking the time to review my application for the position of IT manager, development.

Sincerely,

Casey Upton
