Dear Stevie Zboncak,

I am excited to be applying for the position of IT manager, development. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for leadership for post market design engineering projects, managing post-market design activities in accordance with regulations and business and customer needs.

Please consider my qualifications and experience:

- Experience working in entire development lifecycle for an application, including both back-end and front-end development
- Highly self-motivated, always acts with sense of urgency, without sacrificing accuracy and integrity
- Working knowledge of industry leaders and competitors
- Demonstrated experience in managing direct reports
- Market Industry knowledge (expert level)
- Transportation Management technologies (expert level)
- Distribution Management technologies (expert level)
- Experience implementing and automating a DevOps pipeline (CI/CD) for product software development and delivery

I really appreciate you taking the time to review my application for the position of IT manager, development.

Sincerely,

Parker Bechtelar
