Dear Hayden Dickens,

I would like to submit my application for the IT manager, development opening. Please accept this letter and the attached resume.

In the previous role, I was responsible for project management support to the PD internal projects (such as business growth/improvement, new technology, business maintenance projects) by organising and chairing team meetings, collating information, setting up project structures, managing and facilitating progress to active project milestones.

Please consider my qualifications and experience:

- Familiar with network programming on various protocol, format, batch/online interfaces
- Extensive knowledge on SDLC
- Experience working in a consulting / professional services environment (Advantageous)
- IT Staffing Industry Experience
- Good understanding of multiple operating systems platforms (UNIX, Windows, Linux), databases (Oracle, SQL, DB2, Sybase), and server applications such as IIS and Websphere
- Experience leading large teams or programs
- IA/RPA Overview, Automation Development
- Proven experience with technology implementation, across both Agile and Waterfall methods and working across Business and Technology groups

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Story Grady
