IT Manager, Development Cover Letter

59936 Deckow HollowEast Venaport, MS 64179-6319

Dear Indigo Heathcote,

Please consider me for the IT manager, development opportunity. I am including my resume that lists my qualifications and experience.

In the previous role, I was responsible for support in onboarding and educating agencies and brand/business on the digital technology standards needed on projects/programs.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Experience recommending appropriate technology to meet client needs
- Strong working knowledge of application development processes in a web based environment
- Familiarity with DevOps principles
- Experience in leading and guiding teams on application architecture, coding, code reviews, test plans, deployments and operations to drive excellence through the organization
- NET, VB, Java, Javascript
- Platform As A Service (PaaS) technologies
- Enterprise Service Bus / web services system integration tools
- Initiative, creativity, and a proactive approach that exemplifies "can do" behavior

Thank you for taking your time to review my application.

Sincerely,

Lennox Roob
