IT Network Cover Letter

12921 Hoeger HarborsJaysonmouth, WV 63914-8469

Dear Charlie D'Amore,

I would like to submit my application for the IT network opening. Please accept this letter and the attached resume.

In the previous role, I was responsible for physical server maintenance (including critical VPN, Wireless, Firewalls, NAS servers, switches, etc.) with security risks associated with outages & revenue lost when systems go offline.

Please consider my qualifications and experience:

- XML programming skills
- Experience performing mock Federal audits
- Experience with Federal Governance and Requirements
- Working knowledge of Network access methods including T1, DS3, OC3, Ethernet, Wireless (WLC and Meraki) and ISDN
- Experience with network monitoring and performance analysis monitoring tools, and a history of using them for performance tuning and troubleshooting
- Demonstrates poise and professionalism while working under pressure
- Extremely self-motivated and directed, with keen attention to detail
- Proven track record of successfully executing projects and process documentation/implementation

Thank you for your time and consideration.

Sincerely,

Lennox Anderson
