

# IT Planning Analyst Cover Letter

56420 Brad Summit Jacquesview, MI 19553-4595

**Dear Ari Labadie,**

I would like to submit my application for the IT planning analyst opening. Please accept this letter and the attached resume.

Previously, I was responsible for financial leadership through budget/forecast management, investment analytics and strategic support for IT and the Global eComm business unit.

My experience is an excellent fit for the list of requirements in this job:

- Understands business model and planning contribution to meet business strategy
- Possesses strong written, verbal, and presentation skills
- Possesses strong understanding of Demand Management (including Intake Management, Resource Capacity Planning and Portfolio Reporting) and Product Management in an infrastructure context
- Assesses strengths and developmental needs of team members
- Identifies and assesses risks & issues
- Demonstrates solid critical thinking and problem solving skills to analyze, summarize, and deliver solutions to moderately complex problems
- Experience supporting business process improvements within Supply Chain Management
- Logility or other Advanced Supply Chain Planning systems Configuration and User Support experience

**Thank you for your time and consideration.**

Sincerely,

Dallas Runte
