Dear Marion Torp,

I would like to submit my application for the IT planning analyst opening. Please accept this letter and the attached resume.

In the previous role, I was responsible for iT business stakeholders with support during change management activities, IT annual planning and budget process as requested.

Please consider my experience and qualifications for this position:

- Related experience as a Business Analyst in a professional technology consulting, corporate MIS or software development environment
- Experience in building business cases and selling projects
- Experience aligning business strategy to functional and IT processes
- Intuitive and analytical skills
- Functional expertise within a major ERP software (SAP, Oracle, etc)
- Understanding of Transmission, Delivery Operations, and Grid Solutions business units with experience in IT leadership roles, preferably with Transmission, Electric Distribution, and Delivery Operations applications
- Strong understanding of core business processes, applications and/or process systems needed for support of defined scope of applications / business customers
- Excellent facilitation and communication skills related to bringing people or groups with divergent interests into alignment and agreement on common goals and objectives

Thank you for considering me to become a member of your team.

Sincerely,

River Ullrich
