

IT Planning Analyst Cover Letter

203 Leandro LocksPort Otha, NV 54094

Dear Rowan Gulgowski,

I submit this application to express my sincere interest in the IT planning analyst position.

In my previous role, I was responsible for project support as a business analyst across various projects in Supply Chain, IT and Finance, Buying and Planning.

My experience is an excellent fit for the list of requirements in this job:

- Experience developing application roadmaps, business plan, strategies, operational models and associated business processes
- Understanding of enterprise technologies
- Very strong written communication and documentation skills
- Understanding of Information Technology project life cycle and associated processes
- Highly proficient with MS Office, in particular, MS Excel
- Experience navigating SAP (financial modules)
- Strong Systems Analyst/Design background
- Demonstrates strong critical thinking and problem solving skills to analyze & solve complex problems

I really appreciate you taking the time to review my application for the position of IT planning analyst.

Sincerely,

Brooklyn Oberbrunner
