IT Risk & Compliance Cover Letter

6479 Elmer SpringsNorth Waylonton, TX 44866-6734

Dear Corey VonRueden,

In response to your job posting for IT risk & compliance, I am including this letter and my resume for your review.

Previously, I was responsible for pCI domain expertise for annual PCI Report on Compliance, or other PCI controls and activities that require this expertise.

Please consider my experience and qualifications for this position:

- Knowledge of Information Security Standards (ISO 27001/27002, ITIL)
- Knowledge of Data Privacy and Compliance Regulations (MA CMR 201, HIPPA, Red Flag)
- Oracle GRC suite experience, specifically the AACG module, preferred
- Experience with access provisioning and monitoring control performance or assessment
- Experience developing, documenting and maintaining access and security policies, processes, procedures, and standards
- Requires experience in managing large teams and building relationships with people at a variety of levels
- Demonstrated expertise in risk and compliance management within an IT organization
- Demonstrated expertise in developing and reviewing policy

Thank you for considering me to become a member of your team.

Sincerely,

Sawyer Zieme
