

IT Security Risk Cover Letter

49768 Eveline Mountains West Antoine, SD 57337-3887

Dear Gray Hickie,

I submit this application to express my sincere interest in the IT security risk position.

In my previous role, I was responsible for technical leadership in the field of data security and compliance, specifically the ability to determine the least business impactful way of implementing security tools and features.

Please consider my qualifications and experience:

- Industry certified understanding of cybersecurity
- Experience in Governance, Risk & Compliance
- Experience in IT Risk and Security technologies, Data Analytics, and Reporting
- Performing gap analyses within different environments coupled with an in depth understanding of regulatory guidelines standards and best practices related to ISO and NIST
- Graduate student or equivalent in IT engineering, IT Auditing, Computer Science, Communication technology, IT Digital innovation & management, Cand.merc.aud or Business Administration and Information Systems
- MSA preferred
- User Access Management experience with related tools and technology experience
- Can absorb complex technical information and communicate effectively to both technical and non-technical audiences

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Lennox Kiehn
