

IT Security Risk Cover Letter

15263 Nikolaus RoadsPort Gaynell, OR 60900

Dear Morgan Legros,

I am excited to be applying for the position of IT security risk. Please accept this letter and the attached resume as my interest in this position.

In the previous role, I was responsible for direction for IT audit team members regarding data sampling in support of audit engagements with an expert understanding of data models and databases with the ability to generate complex SQL scripts.

My experience is an excellent fit for the list of requirements in this job:

- Profound IS security technology knowledge combined with basic understanding of the overall context of business processes and the IS technologies impact
- Understanding of IS operational processes and best practices
- Certificate(s) such as CISSP, CRISC, CISA, CISM, ITIL, CGEIT or comparable would be an asset
- Demonstrates understanding of financial industry legal, regulatory and compliance requirements for information security
- Excellent hands on experience in MS Office (Word, Excel, Access, Power Point)
- Excellent critical thinking / problem solving abilities and detailed analytical skills
- Experience leading teams of 5+ staff
- Experience executing & leading multiple projects at the same time

Thank you for your time and consideration.

Sincerely,

Quinn Okuneva
