

Java Web Application Developer Cover Letter

7424 Lynch RuePort Mitchelfort, NC 21063

Dear Emery Streich,

I submit this application to express my sincere interest in the java web application developer position.

In the previous role, I was responsible for direction and define best practices for designing modern applications for all the firms Java developers.

Please consider my experience and qualifications for this position:

- Familiar with Python or Java, and related web framework, such as Django, Spring
- Familiar with relational DB, such as MySQL
- Familiar with NoSQL, such as MongoDB
- Good understanding of Object Oriented Methodology and Design
- Development and deployment experience on Linux / Windows platforms
- Experience in PowerBI or TABLEAU, or other business intelligence tools would be an advantage
- Familiar with Web crawl would be an advantage
- Experience in tools development, automation and continuous integration (CI) would be an advantage

Thank you for your time and consideration.

Sincerely,

Sam Bernier
