

Java Web Application Developer Cover Letter

197 Jonah Turnpike Madalinestad, AK 40888-2097

Dear Finley Gerhold,

I am excited to be applying for the position of java web application developer. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for java automation development of projects involving application development, migrations, and additions to existing applications.

Please consider my experience and qualifications for this position:

- Java, Spring MVC, HTML5 and Angular
- Knowledge of AJAX, jQuery, JPA, JSP, Restful Web Services, CSS, Apache Tiles, MVC Framework, TypeScript, and JavaScript
- Supply Chain or Procurement business knowledge or experience and strong understanding of data warehousing concepts
- End to end "full stacked" developer experience
- Experience in Servlet, Spring, Hibernate, Struts
- Experience with source code management tools such as Dimensions and Git
- Experience in systems that use XML, XSLT and schemas
- Knowledge of Web Service implementation (RESTful and SOAP)

Thank you for considering me to become a member of your team.

Sincerely,

Quinn Doyle
