

Java Web Application Developer Cover Letter

33529 Luetzgen Springs Greenholtview, CT 53644

Dear Tatum Kris,

I submit this application to express my sincere interest in the java web application developer position.

In the previous role, I was responsible for guidance to team responsible for design, development and solution delivery on projects involving Java Platform Technologies.

Please consider my experience and qualifications for this position:

- Demonstrated expertise developing Web Services using REST, AJAX, and Hibernate
- Demonstrated expertise designing and developing APIs and backend components for enterprise systems integration using Java alongside Java Spring framework
- Should have working knowledge on Java 8 or higher
- Proven working experience on both Spring and Hibernate (Spring 4 or above)
- Should know OOP concepts well
- Should be proficient in Exception Handling, Collections, Abstract Classes and Interfaces, Constructors, File IO (Input/Output) and Serialization, Collections (List, Map, Set), Access Specifiers, Exceptions (Checked, Unchecked), Generics, Java Keywords (Static, Final, Volatile, Synchronized, Transient), JVM (Java Virtual Machine) and Memory Management, Multithreading and Synchronization, JSP (Java Server Page)/ Servlets
- Should be skilled in one of the IDE (Integrated Development Environment) like Eclipse , IntelliJ
- Should be conversant with Build tools like

Thank you for your time and consideration.

Sincerely,
