JEE Developer Cover Letter

5902 Linsey ManorsClaudinetown, NC 14633-9960

Dear Story Bahringer,

I am excited to be applying for the position of JEE developer. Please accept this letter and the attached resume as my interest in this position.

In the previous role, I was responsible for support to systems/specialty engineers in defining requirements, developing trade studies, performing analyses, and controlling associated data and information.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Excellent programming know-how in JAVA/JEE/JavaScript or in any other languages with sound knowledge in Object Oriented Programming Principles, Design Patterns, Software Architecture
- Knowledge of Continuous Integration including Jenkins job configurations, build processes, REST API for automated job creation
- Experience in building scalable, secure and performant solutions
- Experience with Maven • Experience with WebSphere Application Server
- Experience with JBoss EAP Server
- Develop back-end in Java 8 and Spring
- Experience with Java and familiar with Object-Oriented Development concepts
- Experience with a web framework such as Spring, Jersey, etc

Thank you for considering me to become a member of your team.

Sincerely,

Zion Von
