

# Junior Developer Cover Letter

6115 Lindgren Meadow South Charlottberg, CT 90810-6819

**Dear Max Gislason,**

I would like to submit my application for the junior developer opening. Please accept this letter and the attached resume.

In my previous role, I was responsible for devOps consulting services, DevOps application configuration, requirements documentation participate and support all application aspects of the ITDM and SDLC process for the implementation of software solution delivery services.

My experience is an excellent fit for the list of requirements in this job:

- Knowledge of and experience in database systems, Visual Studio.NET, particularly ASP.NET
- Excellent verbal/written communication skills, mild experience writing requirements documents
- Knowledge and good Agile methodology of full project life cycle development and support
- Knowledge of Web Services and IIS Administration
- Experience working with XML and ACORD – advantage
- Experience with database administration for technologies, including Microsoft SQL, such as backups, restores, and recovery models
- Experience with SQL Server, SQL Server components, and SQL Server tools, including SSIS, SSAS, and SSRS
- Experience with troubleshooting and problem resolution related to database integrity, performance, blocking and deadlocking, and security

**Thank you for considering me to become a member of your team.**

Sincerely,

Riley O'Connell
