

Junior Developer Cover Letter

373 Ambrose Orchard West Kymberlyview, OH 76495-4759

Dear Alexis Bayer,

I am excited to be applying for the position of junior developer. Please accept this letter and the attached resume as my interest in this position.

In the previous role, I was responsible for mentoring and leadership to more junior team members in all aspects of agile based, modern DevOps microservice development.

Please consider my experience and qualifications for this position:

- Hands on experience/Sound knowledge of Automation Servers such as Jenkins, TeamCity, Visual Studio Team Services, Octopus Deploy for Continuous Integration and Continuous Deployment process
- Sound knowledge of Docker/Containerization
- Full life cycle development using Agile Methodology and Source control – ideally using Git
- HTML5/Webkit – Intermediate
- JavaScript – Intermediate with some experience with React
- JQUERY/MooTools/Javascript framework libraries – Intermediate
- AJAX/JSON/XML client/server communications – Intermediate
- NodeJS Server – Understanding

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Zion Hilpert
