

Junior Test Engineer Cover Letter

9848 Gary LightHicklepport, SD 57704-9117

Dear Haven Kozey,

I would like to submit my application for the junior test engineer opening. Please accept this letter and the attached resume.

Previously, I was responsible for software documentation including, but not limited to , Software Requirements Specification, functional specifications, design specifications, Unit test plans.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Understand the software life cycle and patch process
- Knowledge or exposure to Agile Methodology and scrum sessions
- Exposure /Experience in Microsoft Tools such as Vision, Excel and Word
- Exposure/Experience working with Rational testing tools such as Rational Quality Manager (RQM), Rational Team Concert (RTC), and Rational Requirements Composer (RRC)
- Exposure/Experience in Test Automation or any programming language/
- Exposure/Experience in software testing and analysis
- Knowledge of UAV, RADAR, and surface-to-air missile capabilities
- Navy / DoD weapon system acquisition experience

Thank you for considering me to become a member of your team.

Sincerely,

Brooklyn Cormier
