Dear Rory Cronin,

Please consider me for the junior test engineer opportunity. I am including my resume that lists my qualifications and experience.

In my previous role, I was responsible for status updates for test activities, test schedule updates, and deliverables review with client Test Managers and applicable interfacing functional areas;

Please consider my experience and qualifications for this position:

- Good command over Microsoft Office Suite of tools
- Understanding of TDD and BDD concepts
- Be flexible, independent and self-motivated
- Develop optimized production test software for ATE(Automatic Test Equipment)
- Closely cooperate with concept engineering, design and verification and production- and technology engineers regarding the test evaluation
- Knowledge of software testing approaches, types, methodologies
- Excellent analytical and document analysis skills
- Mobile, web and API testing experience

Thank you for taking your time to review my application.

Sincerely,

Stevie Kris
