

Lathe Operator Cover Letter

399 Barry Gateway West Princechester, UT 61121-4793

Dear Tatum Franecki,

I submit this application to express my sincere interest in the lathe operator position.

Previously, I was responsible for cMM programming and troubleshooting support to the shop floor.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Utilize various tools necessary for quality checks
- Able to operate API Thread gauges proficiently
- Adhere to all HSEQ policies and procedures, including ensuring appropriate PPE is worn at all times
- Monitoring and operating CNC (computer numerically controlled) lathe machines to cut metal and plastic parts for the manufacturing industry
- Rewarding Career
- Health Care Plan and Life Insurance
- Understanding of basic programming language
- Experience in the setup & operation of manual and/or CNC milling, turning machines, or boring mills for heavy metal removal on medium to large parts to produce component parts and assemblies

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Rowan Hudson
