

# Lead Application Developer Cover Letter

753 Wyman Heights South Shonashire, VA 21899-7016

**Dear Casey Schuppe,**

I submit this application to express my sincere interest in the lead application developer position.

In the previous role, I was responsible for the project lead role on structural engineering design during concept, design development, detailed design and construction phases of buildings structures projects.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Distributed application environments
- Knowledge of XML, XSLT, XSD, HL7 messaging formats
- Expertise in Back-End Development (SQL, REST, WCF, & WPF)
- IBM DB2 database development
- Strong Experience in Front-End Web Development (ASP.NET, HTML 5, CSS, and JavaScript)
- Experience with version control systems such as Git, SubVersion
- Knowledge of public clouds such as AWS, Azure, Google Cloud
- ASP.Net, C#, Winforms

**Thank you for taking your time to review my application.**

Sincerely,

Baylor Williamson
