

Lead Application Developer Cover Letter

5165 Nestor WellRosendomouth, IN 33275

Dear Jordan Schoen,

I would like to submit my application for the lead application developer opening. Please accept this letter and the attached resume.

In my previous role, I was responsible for security testing tools recommendations for the program's CI/CD pipeline to achieve DevSecOps and support the adoption of the selected tools.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- SFDC Administrator and Developer certifications
- Experience in a large scale, Agile operational environment
- Has a broad level of understanding surrounding information systems and application architecture standards
- Demonstrable proficiency in scripting
- Proficiency in a .Net language (C#, VB.net preferred)
- Experience in developing against API for cross function requirements
- Knowledge of automation platforms including VMware vRA/vRO, Puppet, Azure Automation, AWS Cloud Formation, or similar
- Advanced knowledge of COGNOS 10.2.2+ administration functions, applications and capabilities

Thank you for considering me to become a member of your team.

Sincerely,

Story Morissette
