

Lead Application Developer Cover Letter

1373 Johnnie LodgeNew Jaymeton, NY 28038

Dear Oakley Conn,

Please consider me for the lead application developer opportunity. I am including my resume that lists my qualifications and experience.

In the previous role, I was responsible for technical leadership and hands-on implementation role in the areas of data techniques including data access, integration, modeling, visualization, mining, design and implementation.

Please consider my experience and qualifications for this position:

- Cloud Management Platforms, including Financial Management/Reporting
- Public Cloud Solutions AWS EC2, S3, ELB, VPCs (or Azure equivalents)
- QA and/or application testing including unit, integration, performance testing and other similar disciplines
- Containerized application development specifically using Docker/Kubernetes
- Knowledge of SQL and/or NoSQL database systems
- Virtualization environments (VMware, Azure IaaS, AWS IaaS)
- Infrastructure design/architecture (vBlock, EMC Storage, Cisco Network, Cisco UCS compute)
- Application or Technology (TOGAF useful)

Thank you for your time and consideration.

Sincerely,

Emerson Romaguera
