

# Lead Developer Cover Letter

603 Sheba AlleyLarsonview, NH 62055-7808

**Dear Skyler Pfeffer,**

Please consider me for the lead developer opportunity. I am including my resume that lists my qualifications and experience.

In the previous role, I was responsible for leadership to an existing development team, a mix of two sub-teams, one focused on interface development using the Lyniate Rhapsody platform and the other team doing custom development using a variety of languages (python, java, etc.).

Please consider my qualifications and experience:

- Hands on Senior Java Engineer to architect, design and implement systems on the analytics platform
- Knowledge in HTML5, Angular.JS, D3, ag-grid, Typescript
- Significant experience on JVM tuning
- In-depth knowledge with technologies such as Web Services, XML, JSON, HTTP, SSL, TCP/IP, Caching
- Open to learn other tools under Reporting & Data visualization space
- Process driven - can design scalable, repeatable processes to enable quick decision-making and action, know how to prioritize and juggle multiple things
- Experience with Data Modeling, relational database and SQL
- Experience with database development (SQL, MySQL, NoSQL)

**Thank you for considering me to become a member of your team.**

Sincerely,

Charlie Lockman
