

Lead Developer Cover Letter

534 Nietzsche FordWest Carmelaburgh, NJ 50859-8795

Dear Sawyer Collier,

I am excited to be applying for the position of lead developer. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for support through the entire software development life cycle from idea inception through production warranty support.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- OS – Linux, VM architectures
- Other –Blockchain, Scaled Agile
- Advanced training in applicable development languages, such as iOS/Android, Java, HTML, XML
- Knowledge of Agile software development and relevant processes
- Knowledge of current code repositories utilized by organization
- Knowledge of contemporary Agile development methodologies
- Experience applying software development knowledge to the current IT environment
- Should have extensive experience working with IIS, configuration of web servers, load balancers and web services

I really appreciate you taking the time to review my application for the position of lead developer.

Sincerely,

Sawyer Dietrich
