Dear Dylan Powlowski,

Please consider me for the lead developer opportunity. I am including my resume that lists my qualifications and experience.

Previously, I was responsible for expertise in software development life cycle with a focus on continuous integration and continuous delivery.

My experience is an excellent fit for the list of requirements in this job:

- Investigates and solves complicated problems which requires comprehensive analysis
- Mentors less experienced colleagues in their work
- Actively seeks improvements and acts pro-actively to help the team in its everyday work
- Experience administering application servers, web servers, and databases
- Systems Development and Administration in Linux, Windows Environments
- JavaScript knowledge is an add on
- JEE experience and familiarity with JBoss and Cloud technologies
- Proficient in architecture and related frameworks

Thank you for taking your time to review my application.

Sincerely,

Justice Herman
