Dear Gray Waelchi,

I am excited to be applying for the position of lead developer. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for expertise in software development life cycle providing cost effective solutions for internal & external clients.

My experience is an excellent fit for the list of requirements in this job:

- Extensive .Net Development experience, VB or C#
- Understand of agile development methodology and practice it in day to day work
- Ensure DevOps principles are adopted in applications
- Undertake impact assessment of change requests/incidents against applications / products within domain
- Contribute strongly to all agile ceremonies (planning / stand-ups / retro) to ensure high velocity is maintained
- Co-ordinate and communicate with colleagues to encourage ideas and build on the suggestions of others
- Mastery of a major web programming language (PHP/ASP.NET)
- Deep experience with a major Javascript framework (Angular, React, Ember)

Thank you for considering me to become a member of your team.

Sincerely,

Zion Orn
