

Lead Manufacturing Engineer Cover Letter

9779 Casper PortLake Indiraport, ME 49356-8815

Dear Tatum Goldner,

I would like to submit my application for the lead manufacturing engineer opening. Please accept this letter and the attached resume.

In the previous role, I was responsible for subject Matter Expert (SME) support in component manufacturing processes including metal stamping, CNC machining, welding, and E-coat paint, as well as sub-assembly and assembly systems incorporating robotic and vision systems technologies.

Please consider my qualifications and experience:

- Process implementation and product launch support
- Identify through-put improvements including uptime and failure analysis
- Project Management for new product and/or assembly process implementation
- Experience with resistance welding
- Process Engineering background
- Six Sigma background (green belt or higher preferred)
- Truck or other heavy transportation assembly and or testing experience highly desirable
- Knowledge of equipment procurement process

Thank you for considering me to become a member of your team.

Sincerely,

Gray Quitzon
