

Lead Manufacturing Engineer Cover Letter

899 Langworth LightAlaineshire, MT 05126-2511

Dear Shae Willms,

In response to your job posting for lead manufacturing engineer, I am including this letter and my resume for your review.

In the previous role, I was responsible for manufacturing engineering expertise for production of composite structures with a focus on layup, bagging, VaRTM/RTM, curing and co-curing.

Please consider my experience and qualifications for this position:

- Equipment qualification and plant start-up assistance
- Experience with developing or maintaining manufacturing execution systems
- Familiarity with APQP and related processes
- Knowledge of automated process measurement systems & statistical analysis tools
- Experience with mechanical/electrical designs and automatic assembly equipment
- Experience with assembly methods for bolted joints
- Significant experience of the use of 6 SigmaTools and Processes
- Business process experience and knowledge of engineering and manufacturing processes

Thank you for your time and consideration.

Sincerely,

Tyler Huels
