

# Lead Manufacturing Engineer Cover Letter

2782 Wintheiser LockOlsonmouth, NV 74581

**Dear Oakley Doyle,**

I would like to submit my application for the lead manufacturing engineer opening. Please accept this letter and the attached resume.

In my previous role, I was responsible for expert knowledge of plastic materials, non-destructive testing, destructive testing, heat treatment, coating, forming, stretch bending, extrusion, industry standards and all other common industry processes for metallic materials.

Please consider my qualifications and experience:

- Background in manufacturing and fabrication processes such as electro-optical consumable, medical device, assembly and test, sheet metal, machining, injection molding, pneumatics, fluidics and optics in the medical device industry is preferred
- Additional strengths should include strong initiative, critical thinking skills and understanding of medical device manufacturing and compliance
- Risk management as it applies to cost and timeline
- Fundamentals Of Manufacturing
- Equipment / Capital Procurement
- Fundamentals Of Controls Engineering
- Fundamentals Of Industrial
- Direct implementation experience as a developer in multiple MES implementations

**Thank you for taking your time to review my application.**

Sincerely,

Onyx Reichel
