

# Lead Product Engineer Cover Letter

596 Bobette Way West Pattie, FL 16505

**Dear Justice Wunsch,**

Please consider me for the lead product engineer opportunity. I am including my resume that lists my qualifications and experience.

In the previous role, I was responsible for materials & Processes (M&P) engineering direction and support to hardware design, manufacturing, assembly, test, and anomaly resolution with primary focus on the usage and design requirements of metals, non-metals, adhesives, and other hardware.

Please consider my qualifications and experience:

- Product knowledge (door trim, interior trim) is an advantage
- Good understanding of tooling consideration and requirements
- Able to understand, evaluate and apply technical information (function technical)
- Capable of keeping abreast of an evolving portfolio of products and services (technical learning)
- Capable to lifting heavy loads 40lbs+
- Continuous improvement methodologies, DFX application
- Use of DFSS tools like FMEA.FMECA, Monte Carlo Analysis and associated technical decision making
- Adjusts own interpersonal style to different situations

**I really appreciate you taking the time to review my application for the position of lead product engineer.**

Sincerely,

Max Volkman
