

Lead Product Engineer Cover Letter

635 Johns LoopBergnaumville, SC 69469-7087

Dear Denver O'Conner,

Please consider me for the lead product engineer opportunity. I am including my resume that lists my qualifications and experience.

Previously, I was responsible for daily manufacturing support for the Printed Circuit Board assembly processes.

Please consider my qualifications and experience:

- Relates well to people at all levels and with diverse backgrounds, supporting others to do the same
- Identifies and pursues opportunities for personal and professional development
- Values feedback and uses it for performance improvement
- Ensures that health and safety legal requirements are understood and adhered to by colleagues
- Supports company values
- Identifies and nurtures colleagues with diverse talent and potential through both formal appraisals and informally through various company networks
- Uses formal quality and time management techniques, ensuring high quality results
- Monitors own and others performance so the team is productive and efficient

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Onyx Lemke
