

Lead Server Cover Letter

2258 Cummerata Hill
New Edmundo, SC 77364

Dear Spencer McKenzie,

I am excited to be applying for the position of lead server. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for assistance in the setup and operation of conferencing events in various locations including Mozilla Spaces or off site events as needed.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Experience working with CFEngine or another systems configuration management tool
- Food Handler's card within 1 month of hire
- Thorough knowledge of VOIP and VPN technologies
- Significant experience developing online services (REST APIs) for consumer facing applications
- Experience with front-end development technologies, such as Angular, JavaScript, and CSS
- Strong team building skills and enjoy managing a team in a fast-paced environment
- Excellent communication skills collaborating with both technical and non-technical people
- Experience designing or operating applications in microservices architecture

Thank you for considering me to become a member of your team.

Sincerely,

Tatum Moen
