

Lead Server Cover Letter

77356 Doyle Bypass North Roxanna, NJ 12777

Dear Armani Botsford,

I submit this application to express my sincere interest in the lead server position.

Previously, I was responsible for interpretation feedback for the Food Safety Modernization Act as well as lead the implementation of Preventive Controls for Human Food and a proposed rule on Standards for Produce Safety within the Argo plant.

Please consider my experience and qualifications for this position:

- Experience working in a 24/7 global support group
- Expertise in a common back-end language such as C#, Java, Go, Python, or JS (Node)
- Expertise with cloud-based services and providers
- Occasional lifting of up to 50 lbs and/or consistently up to 10 pounds to move objects
- Good organizational and communication skills necessary
- Good command of the English language, including spelling, grammar and punctuation
- Knowledge of Microsoft Office and/or similar processes
- Manage portfolio change request processes, quality in data, metrics & trends in collaboration with delivery directors across the OCC

I really appreciate you taking the time to review my application for the position of lead server.

Sincerely,

Story Brown
