

# Lead UI Developer Cover Letter

4158 Poulos PortKohlerton, HI 35248

**Dear Marion Green,**

I am excited to be applying for the position of lead UI developer. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for thought leadership for front-end development and architecture and design enterprise front-end stack standards.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- GIT – preferred
- Angular - nice to have
- Apache configurations – nice to have
- XML/XSL – nice to have
- Possess with Perl/Python and C scripting experience
- Experienced with analyzing and designing data models
- Experience with gathering and refining specifications and requirements based on technical needs
- Experienced with working in multiple OS environments

**Thank you for your time and consideration.**

Sincerely,

Emerson Welch
