Lead UI Developer Cover Letter

2375 Altenwerth SquareJaimehaven, NV 52993-5226

Dear Phoenix Windler,

I would like to submit my application for the lead UI developer opening. Please accept this letter and the attached resume.

In my previous role, I was responsible for complex front end solutions as the sole front end developer across all applications.

Please consider my experience and qualifications for this position:

- Skills in frameworks such as AngularJS and Bootstrap
- Possess Perl/Python and C scripting experience
- Develop User Interfaces and Client-Side code using HTML5, CSS and JavaScript for both Mobile and Desktop Web applications
- Write professional and standards compliant code
- Write unit and end to ends test for client side code
- Work with the UX Designer and the Business Analyst to implement professional user interfaces
- Collaborate with the whole project team in the execution of projects to achieve a high level of client satisfaction
- Hands-on experience with a number of JavaScript libraries and frameworks, preferably Angular 1.2, jQuery, Protractor, Karma, nodejs, npm

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Cameron Effertz
