

Linux Admin Cover Letter

248 Fernanda DamSouth Kenneth, KS 60258-5992

Dear Armani Tillman,

I am excited to be applying for the position of linux admin. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for system administration and support for AIX, Solaris and Linux Operating systems including monitoring and troubleshooting.

Please consider my experience and qualifications for this position:

- Knowledge of servers and switches
- Performing system monitoring to ensure system operation health
- Performing capacity planning and performance tuning to prevent issues and minimize service disruptions
- Investigating middleware and integration issues to provide resolution and to develop root cause analyses which will support maintenance improvement and upgrade planning
- Core javascript knowledge
- Experience implementing automation capabilities in AWS
- Experience in working various concepts of AWS, its GUI and configuration tools
- Java platform application server administration

Thank you for taking your time to review my application.

Sincerely,

Gray Aufderhar
