- Understanding of structured 1/ 10/ 40 G cabling, Taps, corvil
- Demonstrable knowledge of Linux kernel tuning to effect better performance, understanding how the underlying subsystems work
- Good knowledge of Internet technologies and concepts such as DNS, routing protocols, TCP, UDP, higher-level protocols like HTTP
- Experience using automated deployment tools (such as Chef, Puppet, Ansible)
- Bash Scripting Language
- Development of tools (python/perl) and puppet modules for automation
- Experience in high frequency trading environments and a deep understanding of low latency and HPC systems

**Thank you in advance for taking the time to read my cover letter and to review my resume.**

Sincerely,
