

Linux Administrator Cover Letter

260 Ngoc LandWunschchester, ID 68343

Dear Denver Bayer,

I submit this application to express my sincere interest in the linux administrator position.

In the previous role, I was responsible for day-to-day administration on the UNIX/LINUX Hadoop network, including operating system installation and troubleshooting, disk management, backup and recovery, network resource management, user support, application installation and trouble shooting.

Please consider my experience and qualifications for this position:

- Experience with Shell scripting Java
- Managing and support global VMware and KVM virtual environments, including provisioning, maintenance, and break/fix troubleshooting
- Managing systems to ensure security, performance and compliance, and functionality
- Proficiency in Linux Operating System Administration and Trouble Shooting
- Knowledge of Server Virtualization Technologies (VMware, KVM)
- Familiarity with server tuning and performance tools
- Knowledge of network drivers, protocols and switches physical disks and SAN configuration
- Knowledge of regulatory compliance policies, procedures and practices

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Casey Klocko
