Mainframe Application Developer Cover Letter

6333 Altenwerth CoveMagdalenemouth, ND 03714

Dear Max Walter,

In response to your job posting for mainframe application developer, I am including this letter and my resume for your review.

In the previous role, I was responsible for accurate estimates for the development plans and system equipment standards for the applications developed or enhanced.

My experience is an excellent fit for the list of requirements in this job:

- Experience in Assembler is preferred
- Excellent organization, verbal and written communications skills
- Work experience in Mainframe COBOL, TSO, JCL, IMS, DB2
- DB2 Certification
- Solid experience of ADABAS Natural and COBOL languages
- Understanding on ITSM Release procedures, ITPAM Self Service, and EURC request tools
- Strong knowledge of SWIFT confirmations and payment messages preferable
- The Enterprise System team is looking for application developers who will thrive in a dynamic work environment and are interested in participating and leading in the delivery of quality software code

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Indigo Lindgren
