

Mainframe Application Developer Cover Letter

404 Tanesha GrovesUllrichside, CO 07603-7405

Dear Emerson Dietrich,

In response to your job posting for mainframe application developer, I am including this letter and my resume for your review.

In the previous role, I was responsible for design, development, integration and implementation of single, multithreaded and distributed applications that leverage data across multiple sources and applications in order to meet the research and innovation needs of the researcher or university; develops application designs, along with other team members, researchers and other IT staff, as needed.

Please consider my experience and qualifications for this position:

- Cobol Mainframe
- In addition to COBOL and CICS, strong JCL and VSAM experience
- Digital Banking
- Healthcare or healthcare insurance industry background
- IMS online
- Expertise in COBOL, JCL, CICS, PL1, VSAM, DB2, IMSDB
- Strong knowledge in Mortgages Systems and applications like Lending Information system, decision system, home loan processing
- Expertise in Agile methodologies

I really appreciate you taking the time to review my application for the position of mainframe application developer.

Sincerely,

River Daugherty
