Management Information Systems Cover Letter

956 Bryant PassBlandafort, NV 35699

Dear Rowan Treutel,

In response to your job posting for management information systems, I am including this letter and my resume for your review.

In the previous role, I was responsible for expert level technical support for the core components of customer's infrastructure environment, including client, server and enterprise software services.

Please consider my qualifications and experience:

- Demonstrated expertise in Change Control tools, Release Management tools, Oracle E-Business Applications, and QA processes within these systems – Oracle E-Business Suite, ModelN – Revenue and Pricing Management, JDA – Supply Chain Management, Hyperion, Oracle Business Intelligence
- Demonstrated expertise in SQL tools, Java, Version Control Systems, and Issue Tracking Systems related to Oracle E-Business Suite, ModelN – Revenue and Pricing Management, JDA – Supply Chain Management, Hyperion, Oracle Business Intelligence
- Strong communication and customer focused attitude
- ESH and/or ESH information systems related technical education and training
- Advanced level of proficiency with computer-based tools and applications including Microsoft Office tools
- Understanding of ESH management system, related process requirements, and supporting tools at corporate and business area levels
- Program/ project management skills, including experience building successful relationships within a team either as team leader or participant to achieve goals and execute deliverables
- Experience supporting both environmental and safety and health programs for US and non US operations

Sincerely,

Reese Zieme
