

Management Information Systems Cover Letter

86344 Kyra MeadowsJesicaborough, VA 04163

Dear Ryan Franeki,

In response to your job posting for management information systems, I am including this letter and my resume for your review.

In my previous role, I was responsible for support for key strategic and operational planning, business and Certificate of Need planning, and other strategic planning endeavors.

My experience is an excellent fit for the list of requirements in this job:

- Demonstrable Experience within a minimum of 2 SAP disciplines across SAP BW, BI or BO
- Demonstrable, relevant experience in IT Service Management
- Experience of cross-functional working, including third parties
- Excellent skills in MS Word, MS Excel, MS PowerPoint and can learn Visio, MS Project, SharePoint applications
- Experience with clinical and/or hospital applications and systems
- Experience in portfolio and project management and financial / cost management
- Experience in developing business cases including Net Present Value (NPV) calculations and value capture methodologies
- Demonstrated knowledge in Oracle application and web-based performance testing

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Sawyer Anderson
