Dear Emerson Hartmann,

I would like to submit my application for the manager cloud opening. Please accept this letter and the attached resume.

Previously, I was responsible for second level support for issues wrt to compute, network and storage on AWS and Azure.

My experience is an excellent fit for the list of requirements in this job:

- Chef, Puppet, Ansible, Teraforms, CloudFormation experience – advantage
- Database knowledge – advantage
- Experience managing Cloud deployment projects and the excellent knowledge of the infrastructure/services which they are built on (WAN backbone, virtual network, virtual compute, virtual storage and security services .)
- Experience managing Cloud projects in the areas of data center transformation, cloud migrations, disaster recover, applications migrations
- Knowledge of the financial services and/or the insurance industry
- Foundational experience in a well-managed, process oriented, financially and metric driven company
- Office location - Tokyo
- Mastery of the tools of the trade, including familiarity with modern cloud computing, agile development, automated testing, and development best practices

Thank you for considering me to become a member of your team.

Sincerely,

Rowan Kshlerin
