

Manager Cloud Cover Letter

598 Barton MewsMillsfurt, MD 64759

Dear Bellamy Quitzon,

I am excited to be applying for the position of manager cloud. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for consultation and delivery of solutions to build/integrate service catalogues, medium to large in-house developed systems and/or purchased software solutions to work with public clouds' (MS Azure & AWS) services;.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- At least one cloud computing related certification
- Strong technical background in application hosting, open source database platform, Caching platform, Search Platform, Messaging Platform
- Strong executive presence and professional presentation skills
- Experience in developing detailed status reports covering all aspects of the project delivery
- A team player with strong interpersonal skills that can develop relationships with end customers, internal resources and partners
- Sales operations leadership experiences
- Collaboration - Work well with others to achieve shared objectives, engage with clients as co-creators
- Influence - Constructively impact the attitudes, perspectives and actions of others through persuasive messages

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,
